## REVIEW & INVESTMENT STRATEGY

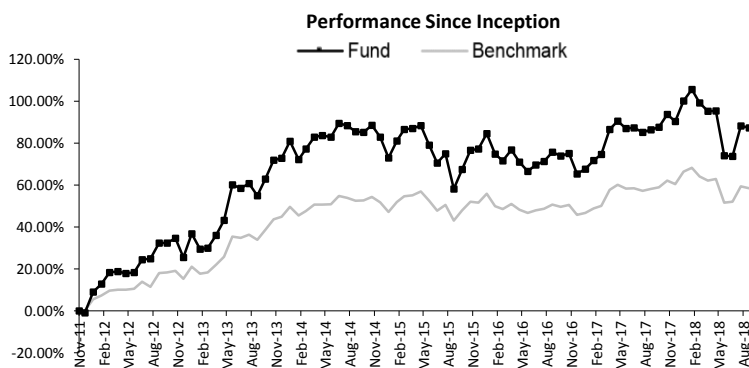

The Fund fell by 1.35% in September 2018, underperforming the benchmark by 0.20%. Underperformance came from the Telecommunication and Consumer sectors. At the stock level, the fund affected by the overweight in UMW Holdings, Cahaya Mata Sarawak and underweight in Digi. Year-to-date (YTD-FY), the fund has outperformed by 0.71%.

September saw the FBMS succumbed to selling pressure as investors locked in gains made in the previous month on worries that the US\$200bn trade tariffs imposed on China may impact global growth and EM currencies. The downtrend was exacerbated further by the financial crisis in Argentina which led investors to flee the peso causing worry of a contagion effect in emerging markets. Sentiment in the local bourses was further affected by the announcement of the cancellation of 3 China-backed projects (the ECRL and the 2 gas pipeline projects estimated at US\$23bn) and the deferment of HSR to 2020 September, which sent the Construction Index tumbling by 5.38% M-o-M. On the GLC-related news, a new MCMC head was announced together with new heads at FGV, PUNB, LTAT and MARA.

We are cautious on the equity market, going into 4Q2018. US-China trade conflicts has intensified and will persist for longer than earlier expected. Domestically, investors will be waiting for the upcoming budget in November to get a glimpse of the future fiscal and monetary policies for the country. We are expecting a prudent budget by the PH Government with private sector taking the lead role in generating economic growth. ON the back of all these uncertainties, we reiterated our capital preservation investment strategy with preference on big cap GLCs and companies with strong fundamentals and solid cash flow and dividends in sectors such as Utilities & Renewable Energy and Industrials. We are also positive on Exporters as US-China trade conflicts may benefit technology-related and Electronics Manufacturing Services ("EMS") players in Malaysia.

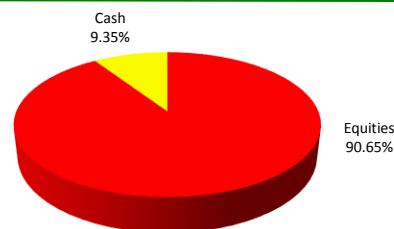

*Note: YTD-FY reflects the period beginning 1 April 2018*

## REVIEW & INVESTMENT STRATEGY

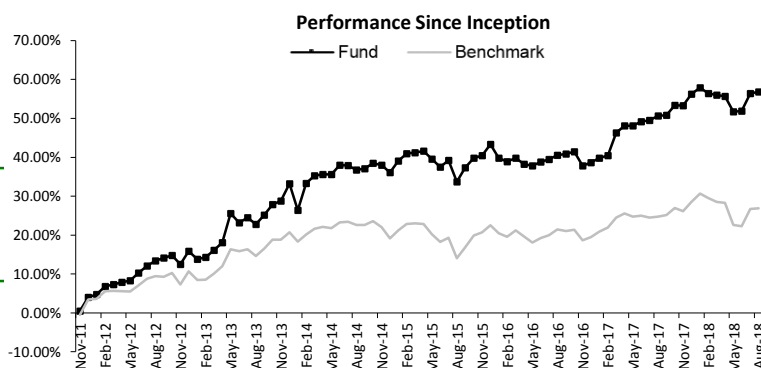

In September 2018, the Fund declined by 0.07%, outperforming the index by 43bps. Year-to-date (FY), the Fund has outperformed the Benchmark by 223 bps. Sukuk outperformed Shariah Equities.

In September, MYR corporate Sukuk outperformed Sovereign Sukuk again as rates investors most taking profit from the rally that started in early July 2018. Credit investors were still chasing yields with the credit spreads tightened again by 1 - 12bps across the rating and tenor spectrum. During the September-18 Monetary Policy Meeting, BNM decided to maintain OPR unchanged at 3.25% as widely expected. With headline CPI drifted lower to 0.2% YoY in August (Jul: +0.9% YoY) and downward adjusted 2018 GDP growth, we see limited room for BNM to move rate upward despite Fed Fund rate is likely to have another rate hike in December 2018. Upcoming Budget 2019 on 2nd November will give us more information about Government's fiscal target next year and potential funding requirement.

On fund strategy, the Fund will overweight AA-rated issuers for better pick-up as the AAA spreads are at its tightest level YTD. We are still moderately overweighting duration against benchmark with absence of OPR pressure at this juncture. We are cautious on the equity market, globally and domestically, going into 4Q2018. US-China trade conflicts has intensified and will persist for longer than earlier expected. Domestically, investors will be waiting for the upcoming budget in November to get a glimpse of the future fiscal and monetary policies for the country. On the back of all these uncertainties, we reiterated our capital preservation investment strategy with preference on big cap GLCs and companies with strong fundamentals and solid cash flow and dividends in sectors such as Utilities & Renewable Energy and Industrials. We are also positive on Exporters as US-China trade conflicts may benefit technology-related and Electronics Manufacturing Services ("EMS") players in Malaysia.

Benchmark (%)	0.27	1.62	3.14	9.35	15.15

## REVIEW & INVESTMENT STRATEGY

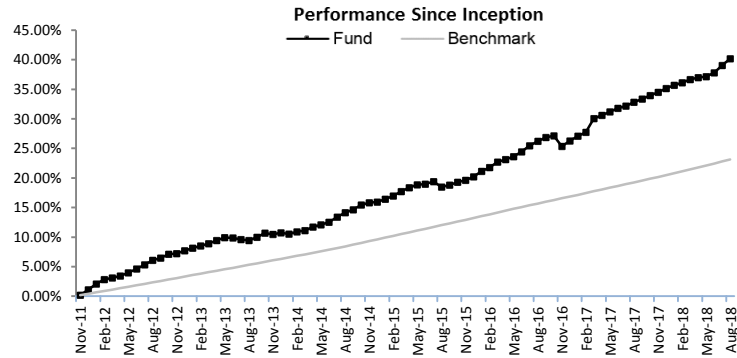

The Fund's performance for the month of September was 0.39% outperformed its benchmark by 12bps.

The Malaysian Government Investment Issues ("GII") yield curve shifted marginally lower by 1-6bps across the curve with the 5 year GII yields moving up the most by 6bps to close at 3.87% from 3.81% previously. During the month, we saw credit spreads continued to tighten 1-12bps across the entire credit curve despite higher UST yields and FOMC hike.

Locally, BNM kept the OPR unchanged at 3.25% in the recent September meeting. BNM reiterated that the Malaysian economy will remain on a steady growth path although it cautioned against various downside risks stemming from heightened trade tensions, slowing global expansion and financial market volatility. Looking ahead, all eyes will be focused towards the upcoming Budget 2019 on 2nd November 2018 for further guidance on the fiscal outlook for 2019. We maintain our strategy to participate in govies opportunistically and focus on the credit sectors for a more stable and higher yield pick up.

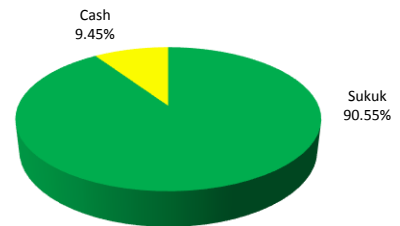

Note: YTD-FY reflects the period beginning 1 April 2018

## GROWTH FUND

Investment Strategy & Approach	The fund will invest in Shariah compliant equities listed on Bursa Malaysia whereby the target investments will be large cap stocks with growth prospects and where trading is fairly liquid.
Asset Allocation	<p>The investment portfolio is subjected to the following:</p> <ul style="list-style-type: none"> <li>• Up to 98% of the Portfolio shall be invested in Shariah compliant equity securities;</li> <li>• At least 2% of the Portfolio will be invested in Shariah based liquid assets;</li> <li>• The value of the Portfolio's holding of the share capital of any single issuer must not exceed 10% of total asset of Portfolio;</li> <li>• The value of the Portfolio's holding in transferable securities issued by any single issuer must not exceed 15% of the Portfolio's Net Asset Value (NAV);</li> <li>• The value of the Portfolio's holding of the share capital of any group of companies must not exceed 20% of total asset of the Portfolio;</li> <li>• Shariah-compliant deposits can only be placed in licensed Financial Institutions by Bank Negara Malaysia (BNM).</li> </ul>

## BALANCED FUND

Investment Strategy & Approach	The Portfolio will invest in diversified portfolio of Shariah compliant equities listed on Bursa Malaysia and Sukuk investments. The strategy of the fund is to maintain a balanced portfolio between Shariah compliant equities and fixed income investments in the ratio of 60:40. The Sukuk portion of the Fund is to provide some capital stability to the Fund whilst the equity portion will provide the added return in a rising market.
Asset Allocation	<p>The investment portfolio is subjected to the following:</p> <ul style="list-style-type: none"> <li>• Up to 60% of the Portfolio shall be invested in Shariah compliant equity securities;</li> <li>• Investment in fixed income securities and liquid assets shall not be less than 40% of the Portfolio's NAV;</li> <li>• At least 2% of the Portfolio will be invested in Shariah based liquid assets;</li> <li>• The value of the Portfolio's holding of the share capital of any single issuer must not exceed 10% of total asset of Portfolio;</li> <li>• The value of the Portfolio's holding in transferable securities issued by any single issuer must not exceed 15% of the Portfolio's NAV;</li> <li>• The value of the Portfolio's holding of the share capital of any group of companies must not exceed 20% of total asset of the Portfolio;</li> <li>• Minimum Long Term Issuer Credit Rating of "A3" as assessed by Rating Agency Malaysia Berhad ("RAM") or equivalent by Malaysia Rating Corporation Berhad ("MARC");</li> <li>• Minimum Short Term Issuer Credit Rating of "P3" as assessed by RAM or equivalent by MARC;</li> <li>• Shariah-compliant deposits can only be placed in licensed Financial Institutions by BNM.</li> </ul>

## FIXED INCOME FUND

Investment Strategy & Approach	The investment strategy of the fund is to invest in a diversified portfolio consisting of Sukuk, short term money market instruments and other permissible investments under the Shariah principles and aim to provide a steady stream of income.
Asset Allocation	<p>The investment portfolio is subjected to the following:</p> <ul style="list-style-type: none"> <li>• Up to 98% of the Portfolio shall be invested in Shariah compliant fixed income securities;</li> <li>• At least 2% of the Portfolio will be invested in Shariah based liquid assets;</li> <li>• Minimum Long Term Issuer Credit Rating of "A3" as assessed by RAM or equivalent by MARC;</li> <li>• Minimum Short Term Issuer Credit Rating of "P3" as assessed by RAM or equivalent by MARC;</li> <li>• The exposure to any single entity for sukuk (not applicable to government securities, BNM's securities, quasi and low risk assets granted by BNM) shall not exceed 20% of the NAV of the Portfolio;</li> <li>• The value of the Portfolio's holding in sukuk (not applicable to government securities, BNM's securities, quasi and low risk assets granted by BNM) of any group of companies must not exceed 30% of the NAV of the Portfolio;</li> <li>• The Malaysian Islamic Money Market Instruments must be rated at least P3 by RAM or equivalent;</li> <li>• Shariah-compliant deposits can only be placed in licensed Financial Institutions by BNM.</li> </ul>

The investment is subject to the following risks:-

1. **Market risk** - The risk that arises due to developments in the market environment and typically includes changes in regulations, politics, technology and the economy. Diversification of the Fund's investments into different unit trust funds of different types (equity or non-equity etc.) and with different investment policy and strategies may help to mitigate its exposure to market uncertainties and fluctuations in the market.
2. **Profit rate risk** - This risk is crucial in a Sukuk fund since Sukuk portfolio management depends on forecasting interest rate movements. Generally, demand for Sukuk move inversely to interest rate movements therefore as interest rates rise, the demand for Sukuk decrease and vice versa. Furthermore, Sukuk with longer maturity and lower profit rates are more susceptible to interest rate movements. Sukuk are subject to interest rate fluctuations with longer maturity and lower profit rates Sukuk being more susceptible to such interest rate movements. This risk can be mitigated through continuous monitoring and evaluation of macro-economic variables to ensure the most appropriate strategy is in place for the Fund's portfolio.
3. **Credit / Default Risk** - Bonds are subject to credit/default risk in the event that the issuer of the instrument is faced with financial difficulties, which may decrease their credit worthiness. This in turn may lead to a default in the payment of principal and interest/ profit.
4. **Liquidity Risk** - Liquidity refers to the ease of converting an investment into cash without incurring an overly significant loss in value. Should there be negative developments on any of the issuers, this will increase liquidity risk of the particular security. This is because there are generally less ready buyers of such securities as the fear of a credit default increases. The risk is managed by taking greater care in security selection and diversification.
5. **Non-compliance risk** - Non-adherence with laws, rules, regulations, prescribed practices, internal policies and procedures may result in tarnished reputation, limited business opportunities and reduced expansion potential for the management company. Investor's investment goals may also be affected should the fund manager not adhere to the investment mandate. This risk can be mitigated through internal controls and compliance monitoring.
6. **Inflation Risk** - Inflation risk can be defined as potential intangible losses that may arise from the increase in prices of goods and services in an economy over a period of time. Inflation causes the reduction in purchasing power and if the rate of inflation is constantly higher than the rate of returns on investments, the eventual true value of investments could be negative.
7. **Issuer risk** - This risk refers to the individual risk of the respective companies issuing the securities. Specific risk includes, but is not limited to changes in consumer tastes and demand, legal suits, competitive operating environments, changing industry conditions and management omissions and errors. However, this risk is minimised through investing in a wide range of companies in different sectors and thus function independently from one another.
8. **Country risk** - The foreign investments may be affected by risks specific to the country in which investments are made such as changes in a country's economic fundamentals, social and political stability, currency movements, foreign investment policies and etc. This risk may be mitigated by conducting thorough research on the respective markets, their economies, companies, politics and social conditions as well as minimising or omitting investments in such markets.
9. **Management Risk** - There is risk that the management may not adhere to the investment mandate of the respective fund. With close monitoring by the investment committee, back office system is being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such as risk.
10. **Fund Management Risk** - Poor management of the fund due to lack of experience, knowledge, expertise and poor management techniques would have an adverse impact on the performance of the fund. This may result in investors suffering loss on their investment of the fund.
11. **Shariah risk** - The risk that arises from potential revision on the status of the securities in the unit trust fund from Shariah compliant to non-Shariah compliant and the possibility of investing in non-Shariah compliant unit trust funds. This risk may be mitigated by conducting periodic review by Shariah Compliance Department and Shariah Committee. Thus necessary action to be taken by Fund Manager to dispose such securities as per advice by Shariah Compliance Department and Shariah Committee.

## NOTES ON FEES AND CHARGES

Actual Returns  
(Net of Tax and Charges)

1. Past performance of the fund is not an indication of its future performance.
2. This is strictly the performance of the investment fund, and not the returns earned on the actual contributions paid of the investment-linked product.
3. Units are created and cancelled at the next pricing date following receipt of contribution or notification of claim respectively.
4. Past performance is calculated based on the Net Asset Value (NAV). The formula of calculation is as follows:

$$\text{Investment Return} = \left[ \left( \frac{\text{NAV 31 March Year X}}{\text{NAV 31 March Year (X-1)}} \right) - 1 \right] \times 100$$

## OTHER INFORMATION

Basis & Frequency of  
Unit Valuation

1. The unit price on any valuation date of a fund shall be obtained by dividing the NAV on the business day before the valuation date by the number of units in issue of the relevant fund.
2. The NAV shall be determined as follows:-
  - a) The last transacted market price at which those assets could be purchased or sold,
  - b) Plus the amount of cash held uninvested
  - c) Plus any accrued or anticipated income
  - d) Less any expenses incurred in purchasing or selling assets
  - e) Less any amount for the liabilities of the Fund
  - f) Less the amount in respect of managing, maintaining and valuing the assets
3. To ensure fair treatment to all unit holders, the Fund Manager may impute the transaction costs of acquiring or disposing of assets of the Fund, if the costs are significant. To recoup the cost of acquiring and disposing of assets, the Manager shall make a dilution or transaction cost adjustment to the NAV per unit to recover any amount which the Fund had already paid or reasonably expects to pay for the creation or cancellation of units.
4. Unit valuation is performed on a daily basis on each Business Day.

Exceptional Circumstances

The Manager may take the following actions that may become necessary due to change of circumstances, as a means to protect the interest of Participants:-

1. Subject to at least three (3) months written notice, the Manager may:-
  - a) Close the Fund or cease to allow the allocation of additional contribution or to transfer the assets to a new fund which has similar investment objectives;
  - b) Change the name of the Fund
  - c) Split or combine existing units of the Fund;
  - d) Make any changes that may be required due to regulatory requirement and/or legislation.
2. The Manager may also choose to, without prior notice, suspend unit pricing and Certificate transactions if any of the exchanges or unit trust management company in which the Fund is invested is temporarily suspended for trading.
